Reviewer’s report

Title: Increased expression of lung TRPV1/TRPA1 in a cough model of bleomycin-induced pulmonary fibrosis in guinea pigs

Version: 3 Date: 07 Jan 2019

Reviewer: Mariana Brozmanova

Reviewer's report:

This manuscript is acceptable for publication on condition that in future the authors will improve the quality of cough reflex research to have convincing data. Moreover they would broaden scientific knowledge on vagal afferent innervation of the airways and neuromodulation of peripheral nerves mediated the cough reflex.

My detailed comment was written in previous review.

Are the methods appropriate and well described?
If not, please specify what is required in your comments to the authors.

Yes

Does the work include the necessary controls?
If not, please specify which controls are required in your comments to the authors.

Yes

Are the conclusions drawn adequately supported by the data shown?
If not, please explain in your comments to the authors.

Yes

Are you able to assess any statistics in the manuscript or would you recommend an additional statistical review?
If an additional statistical review is recommended, please specify what aspects require further assessment in your comments to the editors.

I am able to assess the statistics
Quality of written English
