Title: Health-related quality of life varies in different respiratory disorders: a multi-case control population based study

Version: 1 Date: 13 Jun 2018

Reviewer: Steven Ronsmans

Reviewer's report:

Thank you for the responses to the comments. I think the changes you have made to the manuscript have improved the quality of the text. Also the information provided in the appendices is useful to understand the study design better.

I just have one very minor comment: in Table 2 you state "FEV1% predicted (%)": what does this "(%)" mean? Do you mean "(sd)?

Are the methods appropriate and well described?
If not, please specify what is required in your comments to the authors.

Yes

Does the work include the necessary controls?
If not, please specify which controls are required in your comments to the authors.

Yes

Are the conclusions drawn adequately supported by the data shown?
If not, please explain in your comments to the authors.

Yes

Are you able to assess any statistics in the manuscript or would you recommend an additional statistical review?
If an additional statistical review is recommended, please specify what aspects require further assessment in your comments to the editors.

I am able to assess the statistics
