Reviewer's report:

Dear Authors,

You have addressed the major concerns I raised after the first review. I have a few additional comments:

1. Table Titles:
   a. Table titles should be self explanatory without the need to refer to the main text.
   b. Avoid using non-standard abbreviations in the titles of the tables

2. Table 4: I presume this presents results of sputum microscopy. This needs to be clearly stated

Are the methods appropriate and well described?
