**Reviewer’s report**

**Title:** Targeted therapy in pulmonary veno-occlusive disease: time for a rethink?

**Version:** 0  **Date:** 25 Aug 2019

**Reviewer:** Kohichiro Sugimura

**Reviewer's report:**

This report is dealing with the effect of PAH-targeted therapy for PVOD patients. The reviewer thinks this topic is interesting, however, this study has some criticism as described below.

1. Please add the data about the change of DLCO before and after PAH-targeted therapy.
2. The authors should describe the prognosis of PVOD patients in this report.
3. The reviewer is interested in the clinical course of Patient 5. Do the authors think about the possibility to misdiagnose PVOD as PAH? Please mention this issue in the discussion section.

**Are the methods appropriate and well described?**

If not, please specify what is required in your comments to the authors.

Yes

**Does the work include the necessary controls?**

If not, please specify which controls are required in your comments to the authors.

Yes

**Are the conclusions drawn adequately supported by the data shown?**

If not, please explain in your comments to the authors.

Yes

**Are you able to assess any statistics in the manuscript or would you recommend an additional statistical review?**

If an additional statistical review is recommended, please specify what aspects require further assessment in your comments to the editors.
