Reviewer’s report

Title: Reconstruction of the coracoacromial ligament during a modified Latarjet procedure

Version: 2  Date: 31 May 2015

Reviewer: bulent bektaser

Reviewer’s report:

minor revision must be added to discussion about the topic humeral head migration after bristow latarjet procedure or CA ligament excision, there are papers about regeneration, and is migration true?

Level of interest: An article whose findings are important to those with closely related research interests

Quality of written English: Needs some language corrections before being published

Statistical review: Yes, but I do not feel adequately qualified to assess the statistics.
