Title: TRAIL gene 1595C/T polymorphisms contribute to the susceptibility and severity of intervertebral disc degeneration: a data synthesis

Version: 1 Date: 25 Oct 2017

Reviewer: Georg Omlor

Reviewer's report:

The revised manuscript sufficiently answered all raised questions. Detailed statistical supplementary material is provided. Statistics seem appropriate, although I cannot judge this in full detail as I am not a statistician. The manuscript is precise and seems important for further research studies. I recommend publication and have no further comments or questions.

Are the methods appropriate and well described?  
If not, please specify what is required in your comments to the authors.
