Reviewer’s report

Title: A Biomechanical Analysis of Triangular Medial Knee Reconstruction

Version: 1 Date: 06 Dec 2017

Reviewer: Niall Smyth

Reviewer's report:

The manuscript submitted has more than adequate scientific merit, the methods are sound, and the authors should be commended for this. The main issue I have with the manuscript is that the spelling, syntax, and grammar are poor and make it difficult to read at times. These errors are too numerous to list here. I recommend that the authors recruit a fluent English speaker to edit the manuscript in order to correct these mistakes.

The only other note I have is if the authors could include a justification for the amount of force used during the biomechanical analysis. Eg.- How did they determine that 5 N was adequate for certain motions.

Are the methods appropriate and well described?
If not, please specify what is required in your comments to the authors.
Yes

Does the work include the necessary controls?
If not, please specify which controls are required in your comments to the authors.
Yes

Are the conclusions drawn adequately supported by the data shown?
If not, please explain in your comments to the authors.
Yes
Are you able to assess any statistics in the manuscript or would you recommend an additional statistical review?

If an additional statistical review is recommended, please specify what aspects require further assessment in your comments to the editors.

I am able to assess the statistics

Quality of written English

Please indicate the quality of language in the manuscript:

Not suitable for publication unless extensively edited

Declaration of competing interests

Please complete a declaration of competing interests, considering the following questions:

1. Have you in the past five years received reimbursements, fees, funding, or salary from an organisation that may in any way gain or lose financially from the publication of this manuscript, either now or in the future?

2. Do you hold any stocks or shares in an organisation that may in any way gain or lose financially from the publication of this manuscript, either now or in the future?

3. Do you hold or are you currently applying for any patents relating to the content of the manuscript?

4. Have you received reimbursements, fees, funding, or salary from an organization that holds or has applied for patents relating to the content of the manuscript?

5. Do you have any other financial competing interests?

6. Do you have any non-financial competing interests in relation to this paper?

If you can answer no to all of the above, write 'I declare that I have no competing interests' below. If your reply is yes to any, please give details below.
