Reviewer’s report

Title: Pre-operative factors correlated with arthroscopic reparability of large-to-massive rotator cuff tears

Version: 0 Date: 03 Aug 2018

Reviewer's report:

The paper was amended properly. Although I am not a native English speaker I think that some language or grammar errors exist. If there is a chance, I would recommend to ask a native English speaker to revise the manuscript. Although I still believe that some of your findings are already well known your study now seems worth to publish, especially because of the interesting cut-off points.
