Reviewer’s report

Title: Narrow Locking Compression Plate VS Long Philos Plate for Minimally Invasive Plate Osteosynthesis of Spiral Humerus Shaft Fractures

Version: 0 Date: 06 Mar 2019

Reviewer: Andrea Pellegrini

Reviewer’s report:

The paper speak about a interesting topic see quite frequently in the daily practice. MIPO technique is well described and the use of two different plate can be a nice point of view for the journal readers.

The paper is well written. Statical analysis was performed and conclusion are in line to what the results shown.

Congratulation for the job done

Are the methods appropriate and well described?
If not, please specify what is required in your comments to the authors.

Yes

Does the work include the necessary controls?
If not, please specify which controls are required in your comments to the authors.

Yes

Are the conclusions drawn adequately supported by the data shown?
If not, please explain in your comments to the authors.

Yes

Are you able to assess any statistics in the manuscript or would you recommend an additional statistical review?
If an additional statistical review is recommended, please specify what aspects require further assessment in your comments to the editors.

I am able to assess the statistics
