Reviewer's report:

Authors responded well to my previous comments. I just have a small minor comment. Authors confirmed that all data were checked for normal distribution before performing statistical analyses. However, it is not written in the manuscript. Could the authors make their methods for checking data distribution more transparent by reporting it in the methods section?

Are the methods appropriate and well described?
If not, please specify what is required in your comments to the authors.

Yes

Does the work include the necessary controls?
If not, please specify which controls are required in your comments to the authors.

Yes

Are the conclusions drawn adequately supported by the data shown?
If not, please explain in your comments to the authors.

Yes

Are you able to assess any statistics in the manuscript or would you recommend an additional statistical review?
If an additional statistical review is recommended, please specify what aspects require further assessment in your comments to the editors.

I am able to assess the statistics
