Reviewer’s report

Title: Partial mastectomy using manual blunt dissection (MBD) in early breast cancer

Version: 3 Date: 23 September 2015

Reviewer: Edward Chang

Reviewer’s report:

The revised version is improved and acceptable for publication after the necessary revisions were made to address the criticisms.

Level of interest: An article whose findings are important to those with closely related research interests

Quality of written English: Needs some language corrections before being published

Statistical review: No, the manuscript does not need to be seen by a statistician.

Declaration of competing interests:

I have no competing interests.
