Version: 1 Date: 14 Mar 2018

Reviewer: Marco Allaix

Reviewer's report:

This is an interesting paper that handles with a rare condition.

I have some concerns:

- English editing is required and some grammar error need to be fixed
- the opportunity to do biopsies should be discussed
- the role of minimally invasive approach should be mentioned
- since the authors aim to perform a literature review, a detailed analysis of the literature with at least a table is recommended.
