Title: Abdominal wall complications following renal transplantation in adult recipients – factors associated with interventional management in one unit

Version: 1 Date: 19 Dec 2018

Reviewer: Irmgard Kronberger

Reviewer's report:

Dear Authors,

You pointed out well your daily practice of NPWT and operative intervention in complex kidney transplanted patients. Despite the retrospective and single center manner of the manuscript, the underrepresented issue of wound management in transplant patients is pointed out well.

Are the methods appropriate and well described?
If not, please specify what is required in your comments to the authors.

Yes

Does the work include the necessary controls?
If not, please specify which controls are required in your comments to the authors.

Unable to assess

Are the conclusions drawn adequately supported by the data shown?
If not, please explain in your comments to the authors.

Yes

Are you able to assess any statistics in the manuscript or would you recommend an additional statistical review?
If an additional statistical review is recommended, please specify what aspects require further assessment in your comments to the editors.
