Reviewer’s report

Title: Utilizing real-time contrast medium to detect the fistula of giant spinal arachnoid cyst and treat with minimal invasive surgery

Version: 0 Date: 22 Oct 2018

Reviewer: Lee Tan

Reviewer’s report:

The authors reported an interesting case of spinal extradural arachnoid cyst where they treated with minimally invasive approach after identifying the fistula using spinal angiogram. I think this is a rare case that will be of interest of the readership. Accept.

Are the methods appropriate and well described?
If not, please specify what is required in your comments to the authors.

Yes

Does the work include the necessary controls?
If not, please specify which controls are required in your comments to the authors.

Yes

Are the conclusions drawn adequately supported by the data shown?
If not, please explain in your comments to the authors.

Yes

Are you able to assess any statistics in the manuscript or would you recommend an additional statistical review?
If an additional statistical review is recommended, please specify what aspects require further assessment in your comments to the editors.
