Reviewer’s report

Title: Emergency inguinal hernioplasties in a Tertiary Public Hospital in Athens Greece, during the Economic Crisis

Version: 0 Date: 17 May 2018

Reviewer: Marco Allaix

Reviewer's report:

This is an interesting population-based study.

I have a few concerns:
1- I only suggest to revise the English language

2- please add a paragraph of limitations of the study at the end of the discussion

3- according to your manuscript, general anesthesia was largely used before crisis: why is that?

4- are the authors able to perform a cost analysis: if not, this should be added as a study limitation.

Are the methods appropriate and well described?
If not, please specify what is required in your comments to the authors.

Yes

Does the work include the necessary controls?
If not, please specify which controls are required in your comments to the authors.
