Reviewer’s report

Title: Bronchial angiolipoma successfully treated by sleeve resection of the right bronchus intermedius: a case report

Version: 0 Date: 29 Nov 2018

Reviewer: Ali Çelik

Reviewer's report:

Dear authors,

I have read your paper which entitled Bronchial angiolipoma successfully treated by sleeve resection of the right bronchus intermedius: a case report with deep interest.

- Angiolipoma of bronchus is a really rare entity and it can involvement of the structural components of the mediastinum, including the airways and pleura, has also been reported

- Please mention about its two histologic types: infiltrating and non-infiltrating due to infiltrating type invade the adjacent tissues.

- Please change Word of the truncus intermedius to bronchus intermedius,

- Please mention about treatment choices ( i.e radiotherapy )

- Please chance the reference 3, you may add another article which entitled "A giant infiltrating angiolipoma of the mediastinum: a case report."

Sincerely

Are the methods appropriate and well described?
If not, please specify what is required in your comments to the authors.

Yes

Does the work include the necessary controls?
If not, please specify which controls are required in your comments to the authors.

No
Are the conclusions drawn adequately supported by the data shown?
If not, please explain in your comments to the authors.

Yes

Are you able to assess any statistics in the manuscript or would you recommend an additional statistical review?
If an additional statistical review is recommended, please specify what aspects require further assessment in your comments to the editors.
