Reviewer’s report

Title: A Modified Technique of Single-Incision Laparoscopic Hepaticojejunostomy for Children with Choledochal Cysts

Version: 0 Date: 08 Sep 2018

Reviewer: Hirdaya Nag

Reviewer's report:

Manuscript was not blinded as author name was there in the manuscript.

Authors have submitted there modified technique which may be useful in patient management, however i doubt about any addition to existing knowledge by this study.

Are the methods appropriate and well described?
If not, please specify what is required in your comments to the authors.

Yes

Does the work include the necessary controls?
If not, please specify which controls are required in your comments to the authors.

No

Are the conclusions drawn adequately supported by the data shown?
If not, please explain in your comments to the authors.

Yes

Are you able to assess any statistics in the manuscript or would you recommend an additional statistical review?
If an additional statistical review is recommended, please specify what aspects require further assessment in your comments to the editors.

Not relevant to this manuscript

Quality of written English
Please indicate the quality of language in the manuscript:

Needs some language corrections before being published

Declaration of competing interests
Please complete a declaration of competing interests, considering the following questions:
1. Have you in the past five years received reimbursements, fees, funding, or salary from an organisation that may in any way gain or lose financially from the publication of this manuscript, either now or in the future?

2. Do you hold any stocks or shares in an organisation that may in any way gain or lose financially from the publication of this manuscript, either now or in the future?

3. Do you hold or are you currently applying for any patents relating to the content of the manuscript?

4. Have you received reimbursements, fees, funding, or salary from an organization that holds or has applied for patents relating to the content of the manuscript?

5. Do you have any other financial competing interests?

6. Do you have any non-financial competing interests in relation to this paper?

If you can answer no to all of the above, write 'I declare that I have no competing interests' below. If your reply is yes to any, please give details below.

Authors described a modified technique of laparoscopic management of choledochal cyst in Pediatric patients, technical description is not in a flow needs rewriting therefore reader can easily understand. In discussion section authors should mention other techniques in brief in relation to modifications by them including advantages and disadvantages of their technique. Laparoscopic excision of choledochal cyst is an established modality now therefore authors should more prominently highlight relevance of their work.
