Title: Current Approaches in the Surgical Treatment of Liver Hydatid Disease

Version: 0  Date: 24 Jun 2018

Reviewer: Marco Allaix

Reviewer's report:

It is an interesting manuscript.

These are my concerns:
1. English editing is strongly recommended
2. the comparison between lap and open surgery is not correct since different populations of patients are considered. As a consequence, the conclusion regarding the advantages of minimally invasive surgery is not justified.
3. table 5 is very busy and should be simplified.
