Reviewer’s report

Title: Arterial Resection and Reconstruction in Pancreatectomy: Surgical Technique and Outcomes

Version: 1 Date: 03 May 2019

Reviewer: Eirik Aahlin

Reviewer’s report:

Thank you for addressing concerns and comments thoroughly. I think you manuscript adds important knowledge on an important and controversial topic, PD with arterial resection.

However, I think one essential modification is still needed: No matter the explanation for the high mortality, the mortality is high! Therefore, you should state (in conclusions) that the procedure is feasible, not feasible and safe.

Are the methods appropriate and well described?
If not, please specify what is required in your comments to the authors.

Yes

Does the work include the necessary controls?
If not, please specify which controls are required in your comments to the authors.

Yes

Are the conclusions drawn adequately supported by the data shown?
If not, please explain in your comments to the authors.

No

Are you able to assess any statistics in the manuscript or would you recommend an additional statistical review?
If an additional statistical review is recommended, please specify what aspects require further assessment in your comments to the editors.

I am able to assess the statistics

Quality of written English
