Reviewer’s report

Title: Retrospective study on the Pattern and outcome of management of sigmoid volvulus at a district hospital in Ethiopia

Version: 0 Date: 01 Apr 2019

Reviewer: Roberto CIROCCHI

Reviewer’s report:

The manuscript is very interesting and well written

In the introduction you do not report the references from 16 to 21.

I suggest (if is possible) to add the data about the anatomical colonic variations associated (colon and/or mesocolon: length, attach on retroperitoneum, etc)

I suggest to include (in the discussion): a comparation with patients with the volvulus in Western regions (reference 17). In these cases the age is higher and the radiological decision making is different. The same problem in two different populations....

Are the methods appropriate and well described?
If not, please specify what is required in your comments to the authors.

Yes

Does the work include the necessary controls?
If not, please specify which controls are required in your comments to the authors.

Yes

Are the conclusions drawn adequately supported by the data shown?
If not, please explain in your comments to the authors.

Yes

Are you able to assess any statistics in the manuscript or would you recommend an additional statistical review?
If an additional statistical review is recommended, please specify what aspects require further assessment in your comments to the editors.

I am able to assess the statistics

Quality of written English
