Reviewer’s report

Title: Primary hepatic leiomyoma in a Chinese female patient without underlying disease: a case report

Version: 1 Date: 28 Jul 2019

Reviewer: Paolo Magistri

Reviewer's report:

As compared to my previous revision, authors improved significantly the quality of the paper that is now acceptable for publication, besides the intrinsic limits of a case report in terms of scientific relevance.

The table helps a lot the reading and the comprehension of the paper, and images are now more relevant.
