Reviewer’s report

Title: The safety and efficiency of retroperitoneal laparoscopic adrenalectomy via extra and intra perinephric fat approaches: A Retrospective clinical study

Version: 1 Date: 25 Oct 2019

Reviewer: Pier F. Alesina

Reviewer's report:

the manuscript has been substantially improved. Nevertheless, two points need to be still addressed. 1. The authors wrote that it is not necessary to preserve the vein but no bibliography is indicated. This is necessary. 2. In Table 2 the p value for the mean operating time is wrong/not congruent. This should be corrected.

Are the methods appropriate and well described?
If not, please specify what is required in your comments to the authors.

Yes

Does the work include the necessary controls?
If not, please specify which controls are required in your comments to the authors.

Yes

Are the conclusions drawn adequately supported by the data shown?
If not, please explain in your comments to the authors.

Yes

Are you able to assess any statistics in the manuscript or would you recommend an additional statistical review?
If an additional statistical review is recommended, please specify what aspects require further assessment in your comments to the editors.

I am able to assess the statistics

Quality of written English
