Title: FACTORS PREDICTING ONE-YEAR POST-SURGICAL MORTALITY AMONGST OLDER ASIAN PATIENTS UNDERGOING MODERATE TO MAJOR NON-CARDIAC SURGERY – A RETROSPECTIVE COHORT STUDY

Version: 2 Date: 11 Oct 2019

Reviewer: Andrea Szekely

Reviewer's report:

Dear Author, I strongly disagree with the statistical method applied here. I think that the logistic regression is not appropriate for analyzing one-year mortality. Otherwise I find the manuscript important and the large population size has impact for the recent literature. Please consult with a statistician or give your argument signed by a statistician expert.

Are the methods appropriate and well described?
If not, please specify what is required in your comments to the authors.

No

Does the work include the necessary controls?
If not, please specify which controls are required in your comments to the authors.

Yes

Are the conclusions drawn adequately supported by the data shown?
If not, please explain in your comments to the authors.

Yes

Are you able to assess any statistics in the manuscript or would you recommend an additional statistical review?
If an additional statistical review is recommended, please specify what aspects require further assessment in your comments to the editors.

I recommend additional statistical review
