Reviewer’s report

Title: Clinical analysis of Kimura’s disease in 24 cases from China

Version: 0 Date: 03 Nov 2019

Reviewer: Petre Vlah-Horea Botianu

Reviewer's report:

Congratulations for your nice work. I have only a few comments:

1. Please give us some details to appreciate the incidence of this disease? (i.e. how many overall patients did you have in your unit during this period)
2. What are the exact criteria for diagnosing KD?
3. What were the reasons to perform radio- versus chemo in the group with well defined and/or incomplete excision?
4. Please mention that the value of the statistical tests is limited due to the small number of patients involved.

Are the methods appropriate and well described?
If not, please specify what is required in your comments to the authors.

Yes

Does the work include the necessary controls?
If not, please specify which controls are required in your comments to the authors.

Yes

Are the conclusions drawn adequately supported by the data shown?
If not, please explain in your comments to the authors.

Yes

Are you able to assess any statistics in the manuscript or would you recommend an additional statistical review?
If an additional statistical review is recommended, please specify what aspects require further assessment in your comments to the editors.

I recommend additional statistical review
