Reviewer’s report

Title: Gallbladder tuberculosis in a dialysis patient: a case-report

Version: 0 Date: 08 Dec 2019

Reviewer: Hossam Elfeki

Reviewer's report:

Thank you for inviting me to review this interesting case report with regards to a 76 years old female patient with gall bladder tuberculosis and chronic kidney disease. It is a rare case, however I disagree with the authors when they stated that it is the first to be published, as to the best of my knowledge, the first case report was published in 1987 "Gallbladder tuberculosis. Review and case report of a patient with advanced renal failure" by Piper C et al., so please correct. The authors described the case in details and it was managed by radical cholecystectomy and abdominal lymphadenectomy, however they haven't stated anything with regards to the outcome and the post operative period and follow up, please add these details. Please remove all the dates of the investigation and admission.

Are the methods appropriate and well described?
If not, please specify what is required in your comments to the authors.

Yes

Does the work include the necessary controls?
If not, please specify which controls are required in your comments to the authors.

Unable to assess

Are the conclusions drawn adequately supported by the data shown?
If not, please explain in your comments to the authors.

Yes

Are you able to assess any statistics in the manuscript or would you recommend an additional statistical review?
If an additional statistical review is recommended, please specify what aspects require further assessment in your comments to the editors.
