Reviewer’s report

Title: A comparison of the efficacy of three different peak airway pressures on intraoperative bleeding point detection in patients undergoing thyroidectomy: A randomized, controlled, clinical trial

Version: 0 Date: 03 Mar 2020

Reviewer: Daniele Crocetti

Reviewer's report:

Very interesting and well written study. Gives some important information to discover and prevent intra and postoperative bleeding after thyroidectomy.

Are the methods appropriate and well described?
If not, please specify what is required in your comments to the authors.

Yes

Does the work include the necessary controls?
If not, please specify which controls are required in your comments to the authors.

Yes

Are the conclusions drawn adequately supported by the data shown?
If not, please explain in your comments to the authors.

Yes

Are you able to assess any statistics in the manuscript or would you recommend an additional statistical review?
If an additional statistical review is recommended, please specify what aspects require further assessment in your comments to the editors.

I am able to assess the statistics
