Title: Comparison of Sequential, Delayed and Simultaneous Resection Strategies for Synchronous Colorectal Liver Metastases

Version: 0 Date: 19 Sep 2019

Reviewer: Elena Arabadzhieva

Reviewer's report:

The manuscript presents an interesting topic, which is an object of interest for many studies. The article is well written, despite of several language errors. The study is retrospective with relatively small sample size. Because of that, I am not sure that this paper itself add anything new to the current status of literature.
