Reviewer’s report

Title: Robot-assisted laparoscopic reconstructed management of multiple aneurysms in renal artery primary bifurcations: A Case Report and literature review

Version: 0 Date: 04 May 2017

Reviewer: Samay Jain

Reviewer's report:

Very well written. My only suggestion would be to spend a little more time in the discussion commenting on how others can replicate your techniques. Maybe a short paragraph on tips and tricks to the procedure that others can follow to avoid complications. Otherwise, there are a few grammatical errors. Very interesting work.

Are the methods appropriate and well described?
If not, please specify what is required in your comments to the authors.

Yes

Does the work include the necessary controls?
If not, please specify which controls are required in your comments to the authors.

Yes

Are the conclusions drawn adequately supported by the data shown?
If not, please explain in your comments to the authors.

Yes

Are you able to assess any statistics in the manuscript or would you recommend an additional statistical review?
If an additional statistical review is recommended, please specify what aspects require further assessment in your comments to the editors.
