Reviewer’s report

Title: Resource utilization and costs associated with the addition of an antimuscarinic in patients treated with an alpha-blocker for the treatment of urinary symptoms linked to benign prostatic hyperplasia

Version: 1 Date: 13 Jul 2017

Reviewer: Anastasios Athanasopoulos

Reviewer's report:

Line 244: What does the statistical difference of the cost means? I think it is without any substantial significance.

I would clarify this comment. My question is: regarding the cost, is there any meaning speaking about statistical difference or just difference (numerical)?

No further comments

Are the methods appropriate and well described?
If not, please specify what is required in your comments to the authors.

Yes

Does the work include the necessary controls?
If not, please specify which controls are required in your comments to the authors.

Yes

Are the conclusions drawn adequately supported by the data shown?
If not, please explain in your comments to the authors.

Yes

Are you able to assess any statistics in the manuscript or would you recommend an additional statistical review?
If an additional statistical review is recommended, please specify what aspects require further assessment in your comments to the editors.

I am able to assess the statistics
