Reviewer’s report

Title: Renal capsule metastasis from renal pelvic cancer: a case report

Version: 1  Date: 20 Dec 2017

Reviewer: Satoshi Anai

Reviewer's report:

Authors demonstrated the rare case of renal capsule metastasis from renal pelvic cancer. This case had ureter metastasis from breast cancer under treatment with the endocrine therapy. Ureter metastasis from breast cancer is also rare pathology. Authors should show the radiographic findings and the prognosis this pathology. Patients died of "disease progression" 2 years after nephroureterectomy. Which disease progression was the cause of death, renal pelvic or breast cancer? Authors should mention of this issue.

Are the methods appropriate and well described?
If not, please specify what is required in your comments to the authors.

Yes

Does the work include the necessary controls?
If not, please specify which controls are required in your comments to the authors.

Yes

Are the conclusions drawn adequately supported by the data shown?
If not, please explain in your comments to the authors.

Yes

Are you able to assess any statistics in the manuscript or would you recommend an additional statistical review?
If an additional statistical review is recommended, please specify what aspects require further assessment in your comments to the editors.
