Reviewer’s report

Title: Clinical utility of a non-invasive urine test for risk assessing patients with no obvious benign cause of hematuria: A urologist-patient real world data analysis

Version: 1 Date: 04 Dec 2017

Reviewer: Herney Andrés García-Perdomo

Reviewer’s report:

Interesting work.

I will describe some important issues for you to improve the quality of this manuscript:

1. Introduction is too long
2. There are too many references in introduction
3. Objective is not clear enough
4. Methods are lacking appropriate description of theoretical and statistical framework used in this study.
5. Too low sample size (although I understand this was used to perform an statistical model
6. It requires a permission by IRB since you are using clinical data.
7. Studies validating this test are still lacking. So, I believe that issue must be solved before

Thanks

Are the methods appropriate and well described?
If not, please specify what is required in your comments to the authors.

No

Does the work include the necessary controls?
If not, please specify which controls are required in your comments to the authors.

No

Are the conclusions drawn adequately supported by the data shown?
If not, please explain in your comments to the authors.
No

**Are you able to assess any statistics in the manuscript or would you recommend an additional statistical review?**
If an additional statistical review is recommended, please specify what aspects require further assessment in your comments to the editors.

I recommend additional statistical review

**Quality of written English**
Please indicate the quality of language in the manuscript:

Acceptable

**Declaration of competing interests**
Please complete a declaration of competing interests, considering the following questions:

1. Have you in the past five years received reimbursements, fees, funding, or salary from an organisation that may in any way gain or lose financially from the publication of this manuscript, either now or in the future?

2. Do you hold any stocks or shares in an organisation that may in any way gain or lose financially from the publication of this manuscript, either now or in the future?

3. Do you hold or are you currently applying for any patents relating to the content of the manuscript?

4. Have you received reimbursements, fees, funding, or salary from an organization that holds or has applied for patents relating to the content of the manuscript?

5. Do you have any other financial competing interests?

6. Do you have any non-financial competing interests in relation to this paper?

If you can answer no to all of the above, write 'I declare that I have no competing interests' below. If your reply is yes to any, please give details below.

no conflict of interest
