Reviewer’s report

Title: Urethral cavernous hemangioma: a highly misdiagnosed disease (a case report of two patients and literature review)

Version: 0 Date: 31 Oct 2018

Reviewer: Pejman Shadpour

Reviewer's report:

The authors have reported on two urethral angiomas adding to the short list of so far published reports. The text can be significantly summarized and shortened without losing any critical content by crossing out both the redundant details in case descriptions, and basic anatomy in the discussion passage.

Transurethral Holmium laser therapy has been successfully applied to urethral hemangiomas and the authors are encouraged to clearly mention endoscopic laser treatment in addition to intralesional injection, surgery and resection; in their review of the literature (as already cited in ref 13 and 16). The manuscript needs minor linguistic revision to replace uncommon terms and Latin words such as:

Cystourethrocystoscopy - staxis - meatus urinarius - hemspermatozoa and so on.

Are the methods appropriate and well described?
If not, please specify what is required in your comments to the authors.

Yes

Does the work include the necessary controls?
If not, please specify which controls are required in your comments to the authors.

Unable to assess

Are the conclusions drawn adequately supported by the data shown?
If not, please explain in your comments to the authors.

No

Are you able to assess any statistics in the manuscript or would you recommend an additional statistical review?
If an additional statistical review is recommended, please specify what aspects require further assessment in your comments to the editors.

Not relevant to this manuscript
Quality of written English
Please indicate the quality of language in the manuscript:

Needs some language corrections before being published

Declaration of competing interests
Please complete a declaration of competing interests, considering the following questions:

1. Have you in the past five years received reimbursements, fees, funding, or salary from an organisation that may in any way gain or lose financially from the publication of this manuscript, either now or in the future?

2. Do you hold any stocks or shares in an organisation that may in any way gain or lose financially from the publication of this manuscript, either now or in the future?

3. Do you hold or are you currently applying for any patents relating to the content of the manuscript?

4. Have you received reimbursements, fees, funding, or salary from an organization that holds or has applied for patents relating to the content of the manuscript?

5. Do you have any other financial competing interests?

6. Do you have any non-financial competing interests in relation to this paper?

If you can answer no to all of the above, write 'I declare that I have no competing interests' below. If your reply is yes to any, please give details below.

No financial conflict of interest to declare
