Title: Photoallergic Reaction in a Patient Receiving Vandetanib for Metastatic Follicular Thyroid Carcinoma: A Case Report

Version: 1 Date: 16 December 2014

Reviewer: Wioletta Baranska-Rybak

Reviewer's report:

The paper: Photoallergic Reaction in a Patient Receiving Vandetanib for Metastatic Follicular Thyroid Carcinoma: A Case Report presents a rare adverse event. There are single reports focused on phototoxic reactions to vandetanib. Dermatologists should be aware of this cutaneous side effect of vandetanib treatment and affected patients should be counseled to use adequate sun protection. I recommend this paper for publication.

Level of interest: An article of importance in its field

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.
