Reviewer's report

**Title:** Features of Human Scabies in resource-limited settings: the Cameroon case

**Version:** 4  **Date:** 6 July 2015

**Reviewer:** Claire Fuller

**Reviewer's report:**

Discretionary revisions:
Line 194 "known to be associated...." Might be more accurate to say "perceived to be"....., as there are plenty of "clean" people who get scabies so could be misleading.

**Level of interest:** An article of importance in its field

**Quality of written English:** Acceptable

**Statistical review:** No, the manuscript does not need to be seen by a statistician.

**Declaration of competing interests:**
