Reviewer’s report

Title: Validation of the Atopic Dermatitis Control Tool (ADCT©) using a longitudinal survey of biologic-treated patients with atopic dermatitis

Version: 1 Date: 06 Aug 2019

Reviewer: Uwe Wollina

Reviewer's report:

This is a detailed investigation on new tools for treatment evaluation from the patient's perspective. In this study patients with atopic dermatitis and treatment with dupixent were evaluated.

I have only some minor remarks: Please check references 29 and 36, they do not fit into the journal's style.

Are the methods appropriate and well described?
If not, please specify what is required in your comments to the authors.

Yes

Does the work include the necessary controls?
If not, please specify which controls are required in your comments to the authors.

Unable to assess

Are the conclusions drawn adequately supported by the data shown?
If not, please explain in your comments to the authors.

Yes

Are you able to assess any statistics in the manuscript or would you recommend an additional statistical review?
If an additional statistical review is recommended, please specify what aspects require further assessment in your comments to the editors.

I recommend additional statistical review
