Reviewer’s report

Title: An abrupt bleeding of the anteriorly displaced sigmoid sinus: A rare complication of myringoplasty

Version: 1 Date: 26 Sep 2017

Reviewer: Mustafa ÇELİK

Reviewer's report:

Dear authors,

The paper is much better than its previous form. Therefore, it needs some corrections before acceptance.

1- ’Introduction’ should be amended with ’Background’

2- Discussion should be improved with respect to add some comments on following questions;

--- Why did you not perform the temporal bone CT evaluation before surgery?

--- Why did you select the temporal muscle fascia as graft for tympanoplasty?

(The reasons have been explained into authors response letters but, you should add some comments into discussion)

3- You used new references but, they were not stated in the references list. Please correct them.

4- Pre and postoperative PTA figure should be amended with more clearer ones.

5- I recommended you that the following references should be used in the references list;

Best regards.
Are the methods appropriate and well described?
If not, please specify what is required in your comments to the authors.

Unable to assess

Does the work include the necessary controls?
If not, please specify which controls are required in your comments to the authors.

Unable to assess

Are the conclusions drawn adequately supported by the data shown?
If not, please explain in your comments to the authors.

Unable to assess

Are you able to assess any statistics in the manuscript or would you recommend an additional statistical review?
If an additional statistical review is recommended, please specify what aspects require further assessment in your comments to the editors.
