Reviewer's report

Title: Activation of kappa-opioid receptors by U50,488H improves vascular dysfunction in streptozotocin-induced diabetic rats

Version: 3 Date: 14 November 2014

Reviewer: Gustavo Jorge Santos

Reviewer's report:

In this present manuscript the authors show that the KOR activator U50,488H may be used in the treatment of the diabetes-induced vascular dysfunction.

Minor Revisions
1 - The paper has important informations and have to have the English grammar revised, since there are grotesque mistakes in the text.
2 - The Figures legend should be revised, since they are superficial.

Level of interest: An article of importance in its field

Quality of written English: Needs some language corrections before being published

Statistical review: No, the manuscript does not need to be seen by a statistician.
