Reviewer's report

Title: Geographic Patterns in Patient Demographics and Insulin Use in 18 Countries, a Global Perspective from the Multinational Observational Study Assessing Insulin use: Understanding the Challenges Associated with Progression of Therapy (MOSAIc)

Version: 2 Date: 28 April 2015

Reviewer: Nikolaos Papanas

Reviewer's report:

This is a useful study.

Minor essential corrections:
1. In the Discussion, please provide more information on the limitations of the study.
2. In the Discussion, please state the practical implications more clearly.

Level of interest: An article whose findings are important to those with closely related research interests

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.

Declaration of competing interests:

I declare that I have no competing interests.
