Reviewer’s report

Title: Characteristics and outcomes of patients with type 2 diabetes mellitus treated with canagliflozin: a real-world analysis

Version: 0 Date: 03 Aug 2015

Reviewer: Kazuhiko Sakaguchi

Reviewer's report:

The serious problem of this study was to be lack of control group. Though the authors mentioned Canagliflozone's HbA1c lowering effects, the conclusion was scientifically not solid. At least the authors should describe this problem as study's limitation. However, more than six months period in real clinical settings, the information that a good adherence rate was maintained in the usage of canagliflozin was worth reporting. Adding information about adverse events and/or safety of canagliflozin usage in real clinical settings was desirable. I hope the authors would revise their manuscript.

Are the methods appropriate and well described?
If not, please specify what is required in your comments to the authors.

No

Does the work include the necessary controls?
If not, please specify which controls are required in your comments to the authors.

No

Are the conclusions drawn adequately supported by the data shown?
If not, please explain in your comments to the authors.

Yes

Are you able to assess any statistics in the manuscript or would you recommend an additional statistical review?
If an additional statistical review is recommended, please specify what aspects require further assessment in your comments to the editors.

I am able to assess the statistics

Quality of written English
Please indicate the quality of language in the manuscript:

Not suitable for publication unless extensively edited
Declaration of competing interests
Please complete a declaration of competing interests, considering the following questions:

1. Have you in the past five years received reimbursements, fees, funding, or salary from an organisation that may in any way gain or lose financially from the publication of this manuscript, either now or in the future?

2. Do you hold any stocks or shares in an organisation that may in any way gain or lose financially from the publication of this manuscript, either now or in the future?

3. Do you hold or are you currently applying for any patents relating to the content of the manuscript?

4. Have you received reimbursements, fees, funding, or salary from an organization that holds or has applied for patents relating to the content of the manuscript?

5. Do you have any other financial competing interests?

6. Do you have any non-financial competing interests in relation to this paper?

If you can answer no to all of the above, write 'I declare that I have no competing interests' below. If your reply is yes to any, please give details below.

I declare that I have no competing interests.
