Reviewer’s report

Title: Impact of a pioneer diabetes camp experience on glycemic control among children and adolescents living with type 1 diabetes in sub Saharan Africa

Version: 0 Date: 18 Sep 2015

Reviewer: Musarrat Riaz

Reviewer’s report:

What were the reasons for hypoglycemia during camp? Increase physical activity or alteration in insulin dose or dietary factors? Please specify.

How would you explain the increase in weight while simultaneously insulin dose is being reduced?

HBA1C depends on many factors. How can you conclude that reduction in HBA1C was due to the impact of camp. Were the confounding factors controlled.

What type of diet was used during the camp. Was it similar for all the children?

Are the methods appropriate and well described?
If not, please specify what is required in your comments to the authors.

Yes

Does the work include the necessary controls?
If not, please specify which controls are required in your comments to the authors.

Unable to assess

Are the conclusions drawn adequately supported by the data shown?
If not, please explain in your comments to the authors.

Yes

Are you able to assess any statistics in the manuscript or would you recommend an additional statistical review?
If an additional statistical review is recommended, please specify what aspects require further assessment in your comments to the editors.

I am able to assess the statistics

Quality of written English
Please indicate the quality of language in the manuscript:
