Reviewer’s report

Title: Prevalence of Undiagnosed Type 2 diabetes in patients admitted with acute coronary syndrome: The utility of easily reproducible screening methods

Version: 0 Date: 07 Sep 2016

Reviewer: Ajay Rao

Reviewer's report:

The authors tackle a very important gap in clinical care -- management of dysglycemia in ACS patients.

Overall, the manuscript is well-written with appropriate acknowledgements of the limitations.

Were any of the patients that were followed up 3 months later provided any medical treatment of their dysglycemia (metformin, etc.)?

Are the methods appropriate and well described?
If not, please specify what is required in your comments to the authors.

Yes

Does the work include the necessary controls?
If not, please specify which controls are required in your comments to the authors.

Yes

Are the conclusions drawn adequately supported by the data shown?
If not, please explain in your comments to the authors.

Yes

Are you able to assess any statistics in the manuscript or would you recommend an additional statistical review?
If an additional statistical review is recommended, please specify what aspects require further assessment in your comments to the editors.

I am able to assess the statistics

Quality of written English
