Reviewer’s report
Title: Endocannabinoid receptor blockade reduces alanine aminotransferase in polycystic ovary syndrome independent of weight loss.

Version: 0 Date: 10 Mar 2017

Reviewer: Ikram Ismail

Reviewer's report:
Page 5, Line 10: The second study did not involve Rimonobant at all, so this statement is not correct

In both studies, metformin did not result in any change in Insulin Resistance whereas Rimonobant, Pioglitazone and Orlistat all resulted in improvement in Insulin Sensitivity. A comment should be made about this to explain the lack of effect on Insulin resistance with Metformin

Are the methods appropriate and well described?
If not, please specify what is required in your comments to the authors.
Yes

Does the work include the necessary controls?
If not, please specify which controls are required in your comments to the authors.
Yes

Are the conclusions drawn adequately supported by the data shown?
If not, please explain in your comments to the authors.
Yes

Are you able to assess any statistics in the manuscript or would you recommend an additional statistical review?
If an additional statistical review is recommended, please specify what aspects require further assessment in your comments to the editors.
I am able to assess the statistics
Quality of written English
