Reviewer’s report

Title: Association of thyroid nodules with adiposity: a community-based cross-sectional study in China

Version: 0 Date: 21 Nov 2017

Reviewer: Amutha Anandakumar

Reviewer's report:

Specific comments to the authors

1. Were the participants excluded if they had diabetes or hypertension?

2. In Table 3, the authors have split the data into two groups as BMI and central obesity and into age and gender as subgroups. They have also mentioned data were adjusted for age, gender etc. Once age and gender is split into two groups, it is not necessary to adjust for age and gender again in the analysis.

Are the methods appropriate and well described?
If not, please specify what is required in your comments to the authors.

Yes

Does the work include the necessary controls?
If not, please specify which controls are required in your comments to the authors.

Yes

Are the conclusions drawn adequately supported by the data shown?
If not, please explain in your comments to the authors.

Yes

Are you able to assess any statistics in the manuscript or would you recommend an additional statistical review?
If an additional statistical review is recommended, please specify what aspects require further assessment in your comments to the editors.

I am able to assess the statistics
Quality of written English
Please indicate the quality of language in the manuscript:
