Reviewer’s report

Title: A Single-Center Retrospective Study of Factors Related to the Effects of Intravenous Glucocorticoid Therapy in Moderate-To-Severe and Active Thyroid-associated Ophthalmopathy.

Version: 0 Date: 25 Oct 2017

Reviewer: Yasir Elhassan

Reviewer’s report:

The authors investigated the potential factors that may predict the response to intravenous glucocorticoids in Graves ophthalmopathy. Their data suggest that longer duration of eye symptoms and uncontrolled hyperthyroidism are independent factors associated with reduced response to intravenous glucocorticoids.

- The authors defined treatment response as the manifestation of 3 or more of the outcomes listed in table 1 but without any referencing to the basis of this.

- Legends need to be added to table 2 otherwise you cannot tell what is between the brackets.

- The manuscript must undergo extensive review by a native English speaker before it is suitable for publication.

Are the methods appropriate and well described?
If not, please specify what is required in your comments to the authors.

Yes

Does the work include the necessary controls?
If not, please specify which controls are required in your comments to the authors.

Yes

Are the conclusions drawn adequately supported by the data shown?
If not, please explain in your comments to the authors.

Yes

Are you able to assess any statistics in the manuscript or would you recommend an additional statistical review?
If an additional statistical review is recommended, please specify what aspects require further assessment in your comments to the editors.

I am able to assess the statistics
Quality of written English
Please indicate the quality of language in the manuscript:

Not suitable for publication unless extensively edited

Declaration of competing interests
Please complete a declaration of competing interests, considering the following questions:

1. Have you in the past five years received reimbursements, fees, funding, or salary from an organisation that may in any way gain or lose financially from the publication of this manuscript, either now or in the future?

2. Do you hold any stocks or shares in an organisation that may in any way gain or lose financially from the publication of this manuscript, either now or in the future?

3. Do you hold or are you currently applying for any patents relating to the content of the manuscript?

4. Have you received reimbursements, fees, funding, or salary from an organization that holds or has applied for patents relating to the content of the manuscript?

5. Do you have any other financial competing interests?

6. Do you have any non-financial competing interests in relation to this paper?

If you can answer no to all of the above, write 'I declare that I have no competing interests' below. If your reply is yes to any, please give details below.

I declare that I have no competing interests
