Reviewer’s report

Title: Assisted reproductive techniques with congenital hypogonadotropic hypogonadism patients: A systematic review and meta-analysis

Version: 2 Date: 05 Aug 2018

Reviewer: Helena Gleeson

Reviewer's report:

Well written article providing important information. I have a few minor comments.

Can you ensure that all abbreviations are explained both in the abstract and the main article for example ET is explained in the abstract but not the main text.

More description about the CHH group in respect to gender, age and BMI and also control group respect to number, gender, underlying cause of infertility etc in the main text.

Table 1 - please reorganize having a separate column for gender, number of patients, age, BMI, the various outcomes and the control group. It may be useful to divide the studies into male studies and female studies.

Are the methods appropriate and well described?
If not, please specify what is required in your comments to the authors.

Yes

Does the work include the necessary controls?
If not, please specify which controls are required in your comments to the authors.

Yes

Are the conclusions drawn adequately supported by the data shown?
If not, please explain in your comments to the authors.

Yes

Are you able to assess any statistics in the manuscript or would you recommend an additional statistical review?
If an additional statistical review is recommended, please specify what aspects require further assessment in your comments to the editors.

I am able to assess the statistics
Quality of written English
Please indicate the quality of language in the manuscript:
