Reviewer’s report

Title: Impact of technology-based interventions for children and young people with type 1 diabetes on key diabetes self-management behaviours and prerequisites: A systematic review

Version: 0 Date: 27 Aug 2018

Reviewer: Kimberly A Driscoll

1. It is unclear why studies using CGMs were included. Although this is a type of technology, it is different from the others included such as text messaging, mobile phone apps, etc. CGM could be argued as a type of treatment just like insulin pumps and meters. Unless a clear rationale is provided, studies of CGM as an intervention or health care strategy should not be included.

2. I found the entire paper very dense to read. The reader gets lost in all of the text. A better approach would be to summarize the findings more broadly in each section using text and then use tables to describe each of the study's findings.

Minor:

1. Please refrain from using the acronym CYP as it does not seem to be a common acronym in the extant literature.

2. Self-management strategies and self-management behaviors are used interchangeably. Please use the latter term.

Are the methods appropriate and well described?
If not, please specify what is required in your comments to the authors.

Yes

Does the work include the necessary controls?
If not, please specify which controls are required in your comments to the authors.

Unable to assess

Are the conclusions drawn adequately supported by the data shown?
If not, please explain in your comments to the authors.

Yes

Are you able to assess any statistics in the manuscript or would you recommend an additional statistical review?
If an additional statistical review is recommended, please specify what aspects require further assessment in your comments to the editors.

Not relevant to this manuscript

**Quality of written English**
Please indicate the quality of language in the manuscript:

Acceptable

**Declaration of competing interests**
Please complete a declaration of competing interests, considering the following questions:

1. Have you in the past five years received reimbursements, fees, funding, or salary from an organisation that may in any way gain or lose financially from the publication of this manuscript, either now or in the future?

2. Do you hold any stocks or shares in an organisation that may in any way gain or lose financially from the publication of this manuscript, either now or in the future?

3. Do you hold or are you currently applying for any patents relating to the content of the manuscript?

4. Have you received reimbursements, fees, funding, or salary from an organization that holds or has applied for patents relating to the content of the manuscript?

5. Do you have any other financial competing interests?

6. Do you have any non-financial competing interests in relation to this paper?

If you can answer no to all of the above, write 'I declare that I have no competing interests' below. If your reply is yes to any, please give details below.

I declare that I have no competing interests.
