Reviewer’s report

Title: Frequency and risk factors for recurrent gestational diabetes mellitus in primiparous women: a case control study

Version: 3 Date: 10 Jan 2019

Reviewer: Barbara Daly

Reviewer's report:

Authors have addressed all issues and it now reads well. The authors have made suitable changes based on reviewer recommendations and have improved the manuscript and tables. I have outlined a few typographical or grammatical errors below.

Line 81-82 need to be reworded - is it possible to state the proportion of women who have only one birth?

Line 220 you need to include ‘women’ please check your manuscript to make sure that you refer to women rather than their condition, ethnicity or other variable.

Line 308/314 - check spacing before and after reference numbers throughout document.
Line 342 - …primipara women in China

Are the methods appropriate and well described?
If not, please specify what is required in your comments to the authors.

Yes

Does the work include the necessary controls?
If not, please specify which controls are required in your comments to the authors.

Yes

Are the conclusions drawn adequately supported by the data shown?
If not, please explain in your comments to the authors.

Yes

Are you able to assess any statistics in the manuscript or would you recommend an additional statistical review?
If an additional statistical review is recommended, please specify what aspects require further assessment in your comments to the editors.

I am able to assess the statistics
Quality of written English
Please indicate the quality of language in the manuscript:
