Reviewer’s report

Title: The expression of sirtuins, superoxide dismutase, and lipid peroxidation status in peripheral blood from patients with diabetes and hypothyroidism

Version: 3 Date: 22 Jan 2019

Reviewer: Luis Miguel Roman-Pintos

Reviewer's report:

Almost every inquiry was answered, however, figure 2 still seems awkward, since levels of relative SIRT3 mRNA expression in patients with type 1 DM are lower than HT patients, authors report level of significance for this group (p<0.05) vs. HT patients (p<0.001). Please, double-check the information.

Are the methods appropriate and well described?
If not, please specify what is required in your comments to the authors.

Yes

Does the work include the necessary controls?
If not, please specify which controls are required in your comments to the authors.

Yes

Are the conclusions drawn adequately supported by the data shown?
If not, please explain in your comments to the authors.

Yes

Are you able to assess any statistics in the manuscript or would you recommend an additional statistical review?
If an additional statistical review is recommended, please specify what aspects require further assessment in your comments to the editors.

I am able to assess the statistics

Quality of written English
Please indicate the quality of language in the manuscript:
