Title: The Effect of Mild Agonist Stimulation on the Platelet Reactivity in Patients with Type 2 Diabetes mellitus

Version: 0 Date: 13 Jul 2018

Reviewer: Yoshimasa Aso

Reviewer's report:

Please include all comments for the authors in this box rather than uploading your report as an attachment. Please only upload as attachments annotated versions of manuscripts, graphs, supporting materials or other aspects of your report which cannot be included in a text format.

Please overwrite this text when adding your comments to the authors.

The present study investigated the expression of CD62P on platelets and production of platelet micro-particle by mild agonists stimulation in patients with diabetes.

Comments
1. First of all, this manuscript should be received by a native check and be corrected. There are many grammatical errors throughout the manuscript. For example, Page 1 Result: indicated that?
2. Patient characteristics should be describe in more details. How was glycemic control state or kidney function? How was the use of anti-diabetic drugs or anti-hypertensive drugs? Please present patient characteristics as a new Table.
3. Diabetic kidney disease, especially the presence of overt proteinuria, is associated with hyper-coagulation or thrombosis in patients with type 2 diabetes. Did you look at the relationship between diabetic kidney disease and platelets activation induced by ADP in this study?

Are the methods appropriate and well described?
If not, please specify what is required in your comments to the authors.

Yes

Does the work include the necessary controls?
If not, please specify which controls are required in your comments to the authors.

Yes
Are the conclusions drawn adequately supported by the data shown?
If not, please explain in your comments to the authors.

Yes

Are you able to assess any statistics in the manuscript or would you recommend an additional statistical review?
If an additional statistical review is recommended, please specify what aspects require further assessment in your comments to the editors.

I am able to assess the statistics

Quality of written English
Please indicate the quality of language in the manuscript:

Needs some language corrections before being published

Declaration of competing interests
Please complete a declaration of competing interests, considering the following questions:

1. Have you in the past five years received reimbursements, fees, funding, or salary from an organisation that may in any way gain or lose financially from the publication of this manuscript, either now or in the future?

2. Do you hold any stocks or shares in an organisation that may in any way gain or lose financially from the publication of this manuscript, either now or in the future?

3. Do you hold or are you currently applying for any patents relating to the content of the manuscript?

4. Have you received reimbursements, fees, funding, or salary from an organization that holds or has applied for patents relating to the content of the manuscript?

5. Do you have any other financial competing interests?

6. Do you have any non-financial competing interests in relation to this paper?

If you can answer no to all of the above, write 'I declare that I have no competing interests' below. If your reply is yes to any, please give details below.

None.
