Reviewer’s report

Title: The role of the adipocytokines vaspin and visfatin in vascular endothelial function and insulin resistance in obese children

Version: 1 Date: 10 Sep 2019

Reviewer: Aneta Monika Gawlik

Reviewer's report:

Small comments:

- The sentence "Multiple regression analyses confirmed that vaspin is the strongest predictor of tumor necrosis factor-a (TNF-a), interleukin-6 (IL-6), angiotensin-2 (Ang-2), vascular cellular adhesion molecule-1 (VCAM-1), and E-selectin levels." is not clear. Do you mean strongest predictor of higher ....?

- The sentence "In order to evaluate the relationship between metabolism, inflammatory and endothelial parameters and insulin resistance." is not completed.

- single typos: eg. Page 11- line 9 - study not "stuy".

Are the methods appropriate and well described?
If not, please specify what is required in your comments to the authors.

Yes

Does the work include the necessary controls?
If not, please specify which controls are required in your comments to the authors.

Yes

Are the conclusions drawn adequately supported by the data shown?
If not, please explain in your comments to the authors.

Yes

Are you able to assess any statistics in the manuscript or would you recommend an additional statistical review?
If an additional statistical review is recommended, please specify what aspects require further assessment in your comments to the editors.

I am able to assess the statistics
Quality of written English
